

A NEW PLANT FOR LOGOPLASTE ANNOUNCEMENT

Cascais, Portugal, May 20th 2019 – Logoplaste and Tomlinsons are happy to announce a long term collaboration in Wrexham, UK.

Tomlinsons, one of the UK's largest family owned dairies, has completed a sale of its bottle blow moulding production facility to Logoplaste, a leading global designer and manufacturer of value-added rigid plastic packaging solutions to a wide range of blue-chip clients.

The sale plays to the strengths of both businesses, with Tomlinsons being able to focus on growing its dairy operations, and Logoplaste bringing its expertise in rigid plastic packaging to the Wrexham bottling plant. The sale will involve the transfer of 30 bottling plant employees from Tomlinsons to Logoplaste.

Philip Tomlinson and John Tomlinson, Shareholders and Directors, commented "We have been looking for a partner to help us consolidate the doubling of our business over the past 2 years. By selling our bottling plant we have created the operational and financial capacity to now focus on our next phase of growth and an exciting new chapter for Tomlinsons."

Gerardo Chiaia, Logoplaste's CEO, is thrilled to work side by side with Tomlinsons: "This new business is a great opportunity for both Logoplaste and our new client, where both companies will benefit. We will be inputting all our rigid plastic packaging expertise and innovative ideas to produce best in class sustainable bottles. On the other hand, Tomlinsons can focus on what they excel at, producing high quality segregated traceable Welsh, British and Organic milk as well as dairy products. It is a win-win situation."

About Logoplaste

Logoplaste is an industrial group, manufacturing rigid plastic packaging for many well-known global companies, across the food and beverage, personal care, cosmetics, household care and oil and lubricants sectors. Founded in 1976, for over 43 years the company has pioneered in-house manufacturing with the "through the wall" concept, supplying plastic packages "just-in-time" from plants installed directly on the sites of partner clients. Logoplaste currently manages 63 factories, with locations in 16 countries: Brazil, Belgium, Canada, Czech Republic, France, Italy, Poland, Mexico, Netherlands, Portugal, Russia, Spain, Ukraine, United Kingdom, USA and Vietnam. The most up-to-date technologies in injection molding, stretch-blow molding and extrusion molding are used to produce packages across a wide range of market segments. www.logoplaste.com
